Madré Carinus

The recipient of the Principal's Award for 2010 is indeed an exceptional learner. This young man first came to Jan Kriel in 2008 when he was grade 10.

Throughout his years at Jan Kriel he has impressed us with his impeccable manners, honesty and maturity. His work and attitude seem always to be guided by a strong set of principles that he believes in and lives by. He has remained motivated and single-minded in his pursuit of academic excellence, and this is proven in the long list of distinctions he has achieved thus far. Academic success has, however, never changed this learner as he was, and is, always humble and unassuming in his demeanour to both teachers and learners alike, characteristics that have earned him both the respect and love he richly deserves.

He possesses excellent leadership skills which were evident in the way he carried out his role as head prefect and member of the RCL. He has made us so proud on the numerous occasions when he has represented the school, addressing audiences at home as well as abroad. Although faced with a physical disability, he has never allowed these to stand in his way as he always gives more than 100% of himself in everything he does and taught us all a lesson about the power of a positive spirit.

He truly embodies all the qualities of a true leader and great ambassador of the school. He is an example to all and will be missed and remembered for many years to come. We are immensely proud of you, Samuel da Conceisoa.
